Inception of founding the Federation of Asian Polymer Societies (FAPS) goes back to the Summer of 2006 when the Asian Polymer Symposium (APOSYM) was held in Seoul.

Cognizant of the fact that in Asian countries many small conferences had been held in polymer science and engineering, it was proposed during the Seoul APOSYM reception that FAPS should be established in order to offer a broader forum for Asian polymer scientists. This suggestion was enthusiastically accepted by all the participants.

The representatives from China (Fosong Wang; Beijing), Japan (Hiroyuki Nishide; Tokyo), and Korea (Jung-Il Jin; Seoul) got together in Oct. 2007, at Jeju, Korea and agreed to initiate the foundation of FAPS. At the request by Japan, it was also agreed that India (Ashok Misra; Bombay) would be invited to join the group of founding members.

After numerous discussions the Constitution of FAPS was finalized in December 2007 and FAPS came into being on Jan 1, 2008. Being the proposer, I was elected to be the founding President (2008-2009), Prof. Hiroyuki Nishide Vice-President and President-Elect (2010-2011), Prof. Jungahn Kim (Kyung Hee University, Seoul, Korea) Secretary-General, and Hiroyuki Ohno (Waseda University, Tokyo, Japan) Treasurer. Prof. Dong-Hoon Choi (Korea University, Seoul, Korea) and Dr. Takashi Mihara (The Society of Polymer Science, Japan) were appointed as Secretaries.

Till now fourteen countries have joined FAPS and they are Bangladesh, China/Beijing, China/Taipei, India, Indonesia, Japan, Korea, Malaysia, Nepal, Pakistan, Russia, Singapore, Thailand, and Vietnam. There are still many Asian countries we

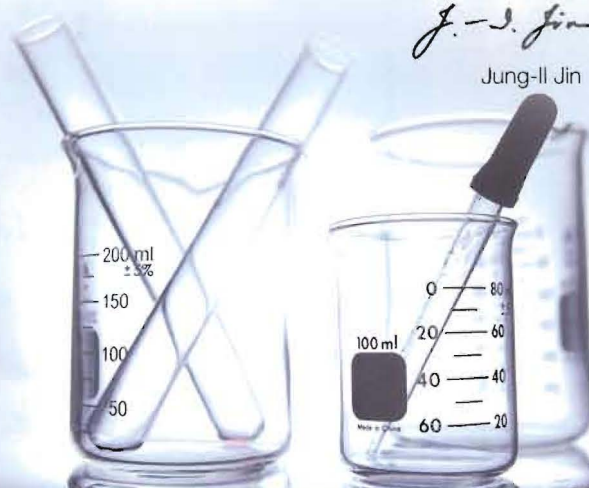

Welcoming Remarks

are trying to induce them to join FAPS. We are very much excited by the enthusiasm being received from the Asian polymer community. Another exciting news is that the 1st FAPS Polymer Congress will be held at the Nagoya Congress Center, Nagoya, Japan, on 20-23 Oct. 2009 (http://www.spsj.or.jp/FAPS_HP/faps_menu.html). I am very thankful to Prof. H. Nishide and all the other members of the Japanese organizing committee for their hard work in the preparation of the Congress. The second FAPS Congress is scheduled in 2011, Beijing, China. FAPS plans to cooperate with other regional Polymer Federations in the world and also to join the International Union of Pure and Applied Chemistry (IUPAC) as an Associate Organization. This will accelerate the international recognition of FAPS.

I am very happy to greet you with this the very first issue of the Federation newsletter and would like to thank Prof. Jungahn Kim and Dong Hoon Choi for their preparation of this news letter.

I wish all the best to the FAPS members and member societies.

Remembrance on Founding Federation of Asian Polymer Societies

The Society of Polymer Science, Japan (SPSJ) was founded in 1951, and is now the world largest academic organization devoted to polymer science, with a membership of around 12,000. During my term of presidency at SPSJ from May 2006 to May 2008, one of the emphases was placed on international exchanges especially to develop close coordination with the Asian polymer communities. For example, SPSJ started to invite 10 scientists to the annual spring meeting for Asian Excellence Awards to stimulate the young generation from Asian countries, which is the largest academic congregation in the field of polymer science with 4,000 participants. SPSJ also contributed to the Polymer Society of Korea (PSK) by giving consenting to the 30th anniversary of PSK in Busan.

A number of international conferences are being held in Asian countries. SPSJ organizes International Polymer Conference (IPC) which is held biennially in Japan. At that time, a collaborative platform involving the activities of organization of international conferences was strongly expected by widely bringing over the Asian polymer societies/communities together. In one side, SPSJ is also executing the cooperation with Pacific Polymer Federation (PPF) as one of the three founding countries (i.e. US, Australia and Japan). We believed in the importance of the Asian-operated active platform from the geographic viewpoint. This was, however, not to suggest counteracting the preemptive blocking in academic communities such as

European Polymer Federation and Latin American Polymer Federation.

Asia is indeed taking an important role as world production center including those of polymer industries. The fastest recovery from the recent depression have clearly demonstrated that global dynamism is initiated from Asia. In addition to these strong points of Asia, taking a worldwide initiative especially in academia is the task expected of FAPS. The Federation of Asian Polymer Societies, as the long-awaited executive platform to develop polymer science and technology, among asian countries has a decisive role to play in the global scenario.

History for the FAPS Foundation!

Professor J.-I. Jin first proposed in the Banquet place of the Asian Polymer Symposium held in Dongkuk University in June 2006 that the Federation of Asia Polymer Societies (FAPS) should be founded. Most polymer scientists participated in the Symposium agreed to his suggestion.

◆ Next Meeting

- Officers' Meeting shall be held yearly.
- The next Officers' Meeting will be held in Beijing, China, 31 Oct.-1. Nov. 2008. The local expense will be covered by the Chinese host.

◆ Other Matters Arising

- The Society of Polymer Science, Japan volunteered to pay \$2,000 for the years of 2008 - 2009. The Korean side will contribute \$1,000 for the same period as originally agreed. The Chinese delegate explained the difficulties for them to make direct payment of \$1,000 to FAPS because of the strict foreign exchange control by their government. They will try to find ways (for example, covering air fares of officers' traveling to Beijing) to make the same degree of contribution (\$1,000) to FAPS. We have not heard any opinion on this matter from the Indian members.
- The emblem of APF will be designed by the Korean Secretariat.
- It was agreed that the host member society holding the Asian Polymer Congress shall try to cover the local expense of, at least, one each delegate (representative) of member societies attending.

This minutes was prepared by Jungahn Kim, Donghoon Choi and Jung-Il Jin, 24 Dec. 2007.

Finalization of Actions taken since the last meeting 2 Dec. 2007

1. Prof. Jin explained what's happened in the change of the name of Federation using the e-mails he has received in more detail. At first, Asian Polymer Association (APA) was considered. However, unanimously, all members agreed to Prof. Jin's opinion; the name of the Federation officially becomes the FAPS; APF to FAPS
